Illinois Regional Archives Depository System

Local Governmental Records Listings
Arranged by County

A Program of the Illinois State Archives

Suggestions for Using the *Local Governmental Records Listing*

With the information contained in the *Local Governmental Records Listing* a researcher may (1) search for county, township, and municipal records held by the Illinois Regional Archives Depositories; (2) obtain addresses and telephone numbers of the regional depositories; (3) find out how to request a search of specific IRAD records; and (4) discover other possible sources for records or information not available from IRAD.

Using the Bookmarks and Links

The first level bookmarks along the left side of this Adobe Acrobat document may be clicked with the left mouse button to take the reader to one of the nine sections of the *Listing*. The second level bookmarks under the ninth section, "County Listings," take the reader to one of the 102 county listings of IRAD holdings. The nine sections of the *Listing* and their functions are as follows:

Title Page:	Opening screen.
Instructions:	Suggestions for using the *Listing*.
IRAD Region Map:	Map of the seven IRAD regions. ✒ Left click with the mouse on a county to go to a list of IRAD holdings for that county. ✒ Left click on the three-letter designation for one of the seven IRAD regions to go to the address and telephone number for that regional depository.
IRAD Research Policy:	Guidelines for contacting a depository and submitting an inquiry by mail or telephone.
Depository Addresses:	Addresses and telephone numbers of the regional depositories.
Family Research Tips:	Tips on the types of IRAD records to search for specific kinds of information of value to genealogists.
Additional Records Sources	Suggestions on where to find records or information not available from IRAD.
Courthouse Addresses:	If IRAD does not hold the particular county record for which you are searching, try contacting the appropriate county official.

County Listings: The "IRAD System Listings" show all of the local governmental records held by IRAD arranged alphabetically by county office and then alphabetically by title. Clicking on this bookmark takes one to the IRAD Region Map. Clicking on the triangle to the left of the bookmark opens and closes the list of secondary bookmarks.

✒ Left click with the mouse on the county name to go to the address for that county's courthouse.

✒ Click on the name of the university to go to the address and telephone number for that regional depository.

Using Adobe Acrobat's Find Tool

A good way to search the *Local Governmental Records Listing* for records of a particular type is to use Acrobat's Find tool. To access it, left click the mouse on the binoculars icon or select the Find command under the Tools menu. This opens a dialog box where one enters a term for which to search.

This works best if you enter a term that will appear in the title of the records for which you are searching. For example, entering the term *architect* in the Find dialog box will locate the first appearance of the word in the *Listing*. Selecting "Search again" in the Tools menu or pressing Control-G will go to the next occurrence of the word. Using this method, a researcher may quickly find the five records in IRAD which register or license architects to do business in particular counties.

ILLINOIS REGIONAL ARCHIVES

Research Policy

Jesse White
Secretary of State

The Illinois Regional Archives Depository System (IRAD) encourages use of its collection by researchers interested in family and local history. In-person, mail and telephone research requests will be handled by IRAD staff at the seven regional depositories.

Visiting a Depository

Researchers may visit an IRAD depository and examine the records that are available. The seven IRAD depositories are open Monday through Friday. Depositories are closed on Saturdays and Sundays, state holidays, and any weekdays the university libraries are closed. Hours are reduced in June and July. Researchers are urged to call before planning a visit to a depository. Consult the reverse side for individual depository hours.

Requesting a Search

IRAD welcomes mail and telephone requests from researchers interested in genealogy and local history. In order for depository staff to conduct a search of the IRAD holdings, researchers should provide the following information:

1. The full names of the persons they are researching;
2. The approximate year when these persons are expected to appear the records;
3. The county which created the records;
4. Record titles/types to search.

Include any additional information that may assist in locating the person or information requested (such as township or precinct for searches of tax and election records.)

Researchers are also asked to limit requests to **two (2) names** at a time and to wait for a response to one request before submitting additional requests. Inquiries should be sent directly to the depository holding the records of the county to be searched.

Obtaining County Listings

The types of local government records held by IRAD vary from county to county. Listings of county, township and municipal records held at the regional depositories are available upon request. The listings are arranged by county and sorted by office and record title within each county. Please limit requests to **five (5) counties** at a time. County listings and additional information about the IRAD System may be obtained from: **Illinois Regional Archives, Illinois State Archives, Norton Building–3E, Springfield, IL 62756. Telephone: (217) 782-3645**.

Fees

The research services of the IRAD System are provided at no charge through the courtesy of the Secretary of State. Therefore, when requesting information by mail, a self-addressed, stamped envelope is not necessary. However, there may be a photocopy fee, for which you will be billed. Unless an expenditure limit is set in advance by the researcher, authorization to produce photocopies will be requested for billings that exceed five (5) dollars.

Loan Policy

Because they are irreplaceable, IRAD records do not circulate and must be used in the depository. However, some census and death certificate microfilm may be borrowed from the Western Illinois University depository for use at other IRAD depositories. Microfilm may not be borrowed through the inter-library loan system.

County Lists Available: To discover which of the above types of records are available for particular counties, researchers may request listings of county, township, and municipal records held by IRAD. The lists are sorted by county, office, and title. Please limit requests to **five (5) counties** at a time. County listings and additional information about the IRAD System may be obtained from: **Illinois Regional Archives, Illinois State Archives, Norton Building–3E, Springfield, IL 62756 [Telephone: (217) 782-3645].**

Reference Hints: Sometimes family history researchers give too little or too much information for IRAD staff to initiate a meaningful search. Observing the following suggestions will help IRAD staff to provide faster clearer reference services.

- **Provide necessary information.** Consult the IRAD Research Policy Sheet for specific information necessary to conduct a search of the IRAD holdings. Provide any additional information which might narrow the search such as township or precinct of residence.
- **Write a clear, concise letter.** Do not send pages of detailed information about your family and ask us to "Please forward any information on these individuals." Never send a pedigree chart and ask us to fill in the blanks! Ask specific questions. What exactly do you wish to know about a particular ancestor?
- **Proofread.** Read your letter (or ask someone else to proofread your letter) so that errors and oversights are corrected.
- **Print or type.** Print the surname of the subject being researched or, better still, type your inquiries, if possible. Also print or type your complete return address on each letter.
- **Mention previous correspondence.** If you have corresponded with us before, please refer to your previous letter(s). This will prompt us to check our files and avoid any duplication of research.
- **Refer to other sources consulted.** Mention the Illinois State Archives, county office and other sources already searched so that we do not recommend those sources again.
